Q2) IBAN

In this program, ask user for an IBAN and then:

a) Validate if it is a Turkish IBAN (includes 26 characters)
b) Validate and extract Country Code (must include "TR")
c) Validate and extract Control Code (must include only digits)
d) Validate and extract Bank Code (must include only digits)
e) Validate and extract Bank Account (must include only digits)

TR	XX	YYYYY	0	ZZZZZZZZZZZZZZZZ
Country Code	Control Code	Bank Code	Rezerve Number	Account Number including 16 digits

Sample Run:
